

TJB SEASONAL WATER FEATURE MAINTENANCE PACKAGES

Spring Start-up Ultimate Care Visit

Our Spring Start-up Ultimate Care service is intended to give your pond or water feature the ultimate jump-start for the Spring, Summer, and Fall seasons. This visit includes the following services:

- Install, test, and clean pump(s).
- Clean and inspect the skimmer basket, skimmer filters, and BioFalls filters. (replace if necessary)
- Check the water level and adjust the auto-fill valve (if so equipped.)
- Add beneficial bacteria as necessary.
- Check the general appearance of the pond and fix exposed rubber, potential leak areas, etc.
- Add rocks & gravel as needed (please pre-notify us if you need these)
- Inspect the stream and/or waterfall to ensure proper water flow.
- Check for shifted pond rocks and adjust as necessary.
- Inspect trim and thin aquatic plants as necessary.
- Remove debris from pond bottom.
- Inspect and adjust lights.
- Replace bulbs as necessary.
- Pressure clean rocks and waterfall based on the client's request.
- Refill pond with clean water (arrange water delivery if necessary).
- Add EcoStarter Water Treatment (to make the water safe for fish).

Fall/Winter Shutdown Ultimate Care Visit

Our Fall Shutdown Ultimate Care service is intended to give your pond or water feature the ultimate jump-start for the winter season. This visit includes the following services:

- Remove Check Valve & pump(s).
- Clean and inspect the skimmer basket & skimmer filters for excess debris.
- Check the water level and drain the auto-fill valve (if so equipped) and supply pipe.
- Add Cold Water beneficial bacteria as necessary
- Cover and/or remove pond & stream(s) with netting (if requested).
- Inspect the stream and/or waterfall to ensure proper water flow.
- Check for shifted pond rocks and adjust as necessary.
- Remove annual water garden plants (IE: Floaters & Tropicals).
- Remove excess debris from pond bottom.
